International Conference and Exhibition on Immunology

Immune USA-2018
Jan 29-31
Las Vegas
USA
About Immune USA-2018

The Immune USA-2018 conference is mainly to host presentations from eminent experts across the field to encourage new collaborations in the field of Immunology. Researchers in the relevant fields across the World can present their topics and can discuss the new results.

The Main Theme of this conference is to explore your thoughts in the field of Immunology.

It aims to bring together leading scientists, researchers and scholars to exchange their views and share their experiences in all the aspects of immunology. The conference covers all the topics related to immunology. It includes plenary discussions, keynote lectures, oral and poster presentations by esteemed delegates with the intention of collecting information on Immunology. The conference is to offer chance to young participants to harness their career in all the orientations. It hosts presentations from investigators at every career stage reporting their latest research findings. It will be a great platform to showcase your views and make the conference a grand success.

Welcome Message

On behalf of the organizing committee of Immunology conference, we would like to invite you to attend and participate in the 'International Conference and Exhibition on Immunology' Immune -USA 2018. The conference will be held on Jan 29-31 at Las Vegas, USA.

The purpose of this conference is to provide an opportunity to update the knowledge on immunology and its studies. The presentations by the International and local speakers give information on immunological aspects, allergic diseases and immune systems.

The attendees can find:
- Lectures by active researchers.
- Key note forums by experienced Immunologists.
- Poster presentations on latest Inventions.
- Panel discussions on new innovations.
- Young research forums.
- Open innovation challenges.
- Global networking with many countries.
- Excellent platform to showcase the new ideas on Immunology.

We trust you will join us to extend your research and enjoy the unique assets in the conference.
Organizing Committee Members

Magdalena Klink
Associate Professor
Institute of Medical Biology, Polish Academy of Sciences
Poland

Giovanna Vitaliti
Pediatric Consultant
Santo Bambino Hospital, Catania
Italy

Pietro Mastroeni
Reader
University of Cambridge
UK

Bing Li
Associate Professor
University of Louisville
USA

Segundo Mesa Castillo
Professor
Institute of Neurology of Havana
Cuba

Joao R Mesquita
Professor
Polytechnic Institute of Viseu
Portugal

Ridha Oueslati
Professor
Laboratory of Immunology, Sciences Faculty of Bizerte
Tunisia

Shunbin Ning
Associate Professor
Department of Internal Medicine, East Tennessee State University
Tennessee, USA

Cheng-Chin Kuo
Associate Investigator
Institute of Cellular and System Medicine
Taiwan

David Naor
Professor
Hebrew University
Israel

Byoung S Kwon
Chief Executive Officer
Eutilex Company Limited
Seoul Korea
ICEI-2018 will mainly focus on “Explore your thoughts in the field of Immunology” by following 20 scientific sessions.

**Scientific Theme:**

ICEI-2018 will mainly focus on “Explore your thoughts in the field of Immunology” by following 20 scientific sessions.

**Scientific Sessions:**

- Immunology
- Adaptive immunity
- Cancer and Tumor Immunobiology
- Computational immunology
- Combining Cancer Immunotherapies
- Immunotherapy
- Clinical Immunology
- Pediatric Immunology
- Immune Tolerance
- Mucosal Immunology
- Reproductive Immunology
- Neuro Immunology
- Nutritional Immunology
- Immune Toxicology
- Fungal Immunology
- Immunoinformatics and System Immunology
- Allergy prevention and risk factors
- Transplantation immunology
- Cellular & regional immunology
- Immunologic techniques

**Who Should Attend:**

International Conference and Exhibition on Immunology is a best platform to reach more participants from immunology community. Immunologists, Oncologists, Immunology Researchers, Immunology Students, Scientists, Virologists Immunology Associations and Societies, Software developing companies, Manufacturing Medical Devices Companies, Immunotherapists, Faculty members who are in undergraduate and graduate Immunology programs, Microbiologists, Pathologists can attend the conference.
Learn
No matter how long you’ve been in a position, chances are there is still something you need to learn.

Network
Collaboration is the way to approach networking. Most people can help each other uncover ideas and spark inspiration when they get to know each other on a

Bold Talks
Get inspired by the bold talks of the speakers who are highly skilled and experienced professionals.

Reputation
You can develop a reputation as an expert to your peers and clients.

New Ideas
Listen and make innovative ideas of yourself in the own fields.

Have Fun
Never underestimate the power of a little fun mixed with some interesting people!
Las Vegas lies in the desert, surrounded by baron hills. The huge resort hotels lining the famous "Strip," with their sparkling lights, fountains, and recreated glamorous sites from cities around the world, offer a fun and exciting retreat from the desert landscape. Las Vegas may be known as “Sin City” because of its mob history and gambling, but it's so much more than slot machines, poker tables and wedding chapels. The fabulous Strip is filled with over-the-top casinos that allow tourists to visit different countries. Casinos feature attractions from pirate ships to great Egyptian monuments to circus acts and gorgeous botanical gardens. The stratosphere tower – sky jump, X-stream and many different rides add special attractions to the tourists. Thus, Las Vegas is a great place to visit year-round.
